Hard. hard.. Hard. hard.. Definitely not the scariest horror game ever, but scary enough to make you cry like a schoolgirl. Tense gameplay with both dynamic chases and thrilling stealth experience, atmospheric soundtrack, and story perfectly short for one dreadful evening. It's dangerous to go alone.. Very good =). Could've been better in my opinion. I had no idea what I was doing and I died in the most weirdest and questionable ways. Atmosphere is scary and a few jumpscars but this game is confusing. Should've been a cheaper price.
