**Whitewater Falls:** *The huge Land of Whitewater Falls is very fertile and humid. Numerous rivers with strong currents let whitewater pour over rapids and waterfalls. The air is filled with misty clouds. Four competitors challenge each other to rule this land of numerous fishing grounds and rich livestock. Whoever gains control over the fortified central sectors has access to the mighty Tower of Tandria, an ancient monument of wisdom and power. But there are further special locations, which may be helpful in overcoming your enemies. Visit the Pilgrimage Site, the Dark Fortress, the Field of Mandrakes and the Laboratory. Expand your realm quickly and protect your progress with fortifications. Search for special sectors with rich mining resources and utilize river ports to increase your gain.*

Several fortified towns are located on the mountain slopes, rewarding victory points and offering high tactical value.
